Re: NATIVE PLANTS FOR NATURAL AREAS

Dear Resident:

In an effort to assist residents in caring for their native areas, the Village of Lincolnshire is offering native plants at cost. These areas are important to our community in providing a sense of place; habitat for our wildlife, birds and insects; to protect the water quality of our watersheds and improve clean our air. (In addition to the native plant program you are invited to participate in the Adopt a Tree program.)

Occasionally we hear, “I don’t like the weedy look of the natural areas”. The key to appreciating these important areas is to understand their function and to identify the individual species within them. The more diversity the healthier the ecosystem and the more beautiful it is.

The attached native plant order includes plants from sun to shade and wet to dry. These varieties will provide something for everyone and every condition. If there is a plant you do not see on this order form, which you would like, please contact me and I will be happy to see if we can get it for you.

Plants will arrive around June 1st and must be picked up from the Village Hall on:

Friday, June 4th 7:00 a.m. to noon or Saturday, June 5th 9:00 a.m. to 11:00 a.m.

This is a great opportunity to make a connection with your natural areas and to make them a source of beauty and personal pride.

Sincerely,

THE VILLAGE OF LINCOLNSHIRE
